Pinenhus was in the older days called "Lundhuus Kro" with the new building such as described. Please notice the road to the boats going through the farm. The road in the right corner is the field road to Vile. This is how it would have looked like app. 1850.

This sceneri took place the 12th of June 1864, when the Austrian army came with 37 boats and needed to go to Mors.

Fishermen outside Pinen Kro 1905.

Building boats 1929.

Spring is coming to the farmbuildings at Pinen kro, in the back you will see the stable where there was a lot of dancing in the 1930's.
